Policy Statement

We aim to ensure all Educators, families and children implement appropriate risk management procedures to prevent the spread of COVID-19. We will take all reasonable steps to prevent the spread of COVID-19 through the implementation of procedures that are consistent with the guidelines of the state Health Authorities. Any person with COVID-19 will be excluded from the Centre for the period recommended by the Department of Health.

All care and consideration will be given to the child who becomes ill while at the Centre, ensuring they are kept comfortable and ensuring the risk of cross infection is minimised until the child is collected by the parent/emergency contact.

Procedure

The Approved Provider, Nominated Supervisor and Educators will follow strict hygiene and infection control procedures at all times to prevent or minimize the spread of COVID-19.

Educators and families must:

Comply with government guidance

The Approved Provider, Educators and volunteers and families must:

- **comply with guidance issued by Government agencies, including in relation to attendance, quarantine and self-isolation.** This includes:
 - ensuring they/a child/a family member stay home if having cold or flu symptoms, until acute symptoms have gone.
 - Stay up to date with recommended Covid-19 vaccinations
 - Register positive rapid antigen test results with Service NSW
- **seek medical attention** if they develop a fever, cough, sore throat or shortness of breath as required.
- **advise the service** if they develop symptoms of the virus or are confirmed to have the virus. This is particularly important if they have been at the service immediately before becoming unwell.

Educators, volunteers and families must also comply with any isolation/exclusion periods in relation to coronavirus implemented by the Approved Provider or Nominated Supervisor including periods which exceed government requirements.

Implement effective hygiene process

The coronavirus is most likely to spread from person-to-person through:

- direct close contact with a person while they are infectious
- close contact with a person with a confirmed infection who coughs or sneezes
- touching objects or surfaces like door handles or tables contaminated from a cough or sneeze from a person with a confirmed infection, and then touching your mouth or face.

Educators and volunteers will ensure they continue to implement hygiene processes outlined in the D-2: Hygiene and D-4 Food safety and Handling Policies to ensure high standards of hygiene and infection control at all times. This includes ensuring that Educators and where relevant children:

- wash hands frequently with soap and water including before and after eating or handling food, going to the toilet, using gloves, and after wiping or touching nose and cleaning up spills of body fluids
- cough and sneeze into their inner elbow, or use a tissue to cover their mouth and nose and placing tissues in the bin immediately after use

If soap and running water is not available, ensure any alcohol-based hand sanitiser used contains at least 60-80% alcohol.

In addition, the Approved Provider and Nominated Supervisor will ensure cleaning requirements are documented and completed regularly, and cleaning staff, including contracted cleaning staff, implement the precautions outlined in the 'Information for Employers' Sheet including:

- wearing gloves and washing hands with soap and water or using alcohol-based hand sanitiser before and after wearing gloves
- wearing surgical masks if person with the virus or in isolation has been in the area being cleaned.

The Approved Provider and Nominated Supervisor will ensure hand hygiene posters are displayed in areas which can easily be seen by families, including the front entrance, and require all Educators and families to use hand sanitiser provided at service entrances.

Information and notification requirements

The Approved Provider or Nominated Supervisor will:

- report instances of (suspected) coronavirus to the local state/territory health department in line with current requirements
- comply with notification requirements to be reported through NQAITS (National Quality Agenda IT System) for serious incidents which include:
 - any incident involving serious illness of a child at the service where the child attended, or should have attended, a hospital
 - any emergency where emergency services attended i.e. there was an imminent or severe risk to the health, safety or wellbeing of a person at the service
 - provide families with current information about the coronavirus.

Interactions with Children

Where appropriate, educators will speak with children about the coronavirus in ways that do not alarm them or cause unnecessary fear or distress. Educators may, for example, discuss with children their feelings in relation to the virus, remind children that the risk of catching the illness is very low, review hygiene measures they can take to reduce the risk of infection, discuss some of the good things happening in the world, or implement other strategies outlined in our C-:13 Relationships with Children Policy. Educators will be careful not to speak to others in an alarmist way about the coronavirus if children are present or within hearing.

Attendance and Fees

As outlined in our Fees Policy, fees are payable for all days that children are enrolled, including when children are sick and cannot attend.

Fees may also be payable if the centre is directed to close or closes voluntarily to contain the spread of the virus. When determining whether to charge fees, the Approved Provider will consider all relevant issues including the likely length of the closure, whether they need to pay staff during the closure, and if they will receive any support from Government to maintain the financial viability of the business.
